

Genetic markers for MS & more!

Our exploration of biomarkers concludes this month with a focus on emerging genetic discoveries in MS. Witness how patients are steering the course of MS research through iConquerMS!

NEWSLETTER SNAPSHOT

Not enough time to read an entire newsletter? Our May newsletter snapshot contains the highlights in a quick, easy to read format.

[Read More](#)

New genetic markers for MS are opening up possibilities for treating or slowing the disease's impact on the nervous system.
